

Laser-Peel

A4 Sheet Label Dispenser

Simple To Use Built To Last

The **LASER-PEEL** is full of unique features and has been designed and built around many years experience of sheet label users requirements.

Increase Production, saving 50% of the time of hand dispensing, nominal feed rate 100mm per second.

Most popular formats of Laser, Inkjet and Copier Labels can be dispensed with a minimum leading edge of 12mm.

No need for programming, the inbuilt microprocessor automatically adjusts for different label sizes.

Up to 100 sheets can be loaded at a time and single sheet or automatic feed selected at a touch of a button.

Right or left handed operation by simple repositioning of the label sensor.
