

Electric Semi-Automatic Label Dispensers

Here is the simple, economic answer: Dispensa - Matic.

If you are still peeling and applying labels manually using both hands then you are probably wasting a great deal of your staff's time. The answer is an inexpensive machine which will speed your labelling operation by up to a factor of four times. No training is necessary and anyone can become a skilled operator with just a few hours use. The machines are robust, require minimal maintenance and a full six months warranty covers each unit against manufacturing defects. When you consider the potential savings, a dispenser will pay for itself in no time at all.

Dispensa - Matic U45

Roll Fed or Fanfold Labels can be dispensed up to a maximum web width of 114mm butt cut or die cut and adjustments for different size labels are made easily and without the need for tools. Maximum roll diameter 225mm on a core size of 75mm.
